Horizon Europe: Coordinator sought for Improved border checks for travel facilitation across external borders and improved experiences for both passengers and border authorities' staff

A UK company is seeking a coordinator and program participant to complete their consortium, applying for the Horizon Europe call "Improved border checks for travel facilitation across external borders and improved experiences for both passengers and border authorities' staff" TOPIC ID: HORIZON-CL3-2021-BM-01-03. The consortium consists of 10 EU entities and a partner with experience in aviation/security and in co-ordinating EU submissions is sought via research development agreement.

Eurostars partner search: Croatian SME looks for a software development company to join in building an innovative air quality measurement station

A Croatian SME has developed a novel air measurement station that enables measuring main outdoor air pollutants without cross-sensitivities in real-time and collecting data quality information enabling open access to local communities. They are looking for a software development company to join a consortium for a Eurostars proposal with the partnership envisaged as a Research Cooperation Agreement.
